

## Thursday - April 11

*In all thy ways acknowledge him and he shall direct thy paths*

*Proverbs 3:6*

### God's Radio Frequency

Luke and my niece Gabrielle had been married for about two years, and Gabby was six and a half months pregnant. Luke is a police detective, who's tall, with dark hair, and handsome as Gabby puts it. One day on his police car radio he heard an officer requesting back up. It was from another police department but he was nearby and decided to assist.

Luke pulled up and parked and proceeded to help the fellow officer. Suddenly he spotted that the man in question had pulled a gun. He yelled to the other officer to duck down. Luke grabbed the man's arms and as he did, the man fired off several shots. A bullet hit Luke's leg and shattered his femur; though in pain he was able to apprehend the man. And after doing so he collapsed to the ground in pain, but he had saved the fellow officer's life! Luke's surgery and recovery was a long and painful process. He has just recently returned to work.

He was interviewed on TV about the shooting and asked, "It wasn't your department, why did you respond?" Luke gave his testimony of how God had placed him in that exact spot to hear the call for help. And that it was God's will for him to answer the call and in doing so save the fellow officer's life. That was God's purpose for him to hear the call for help and to respond at that precise time and in that location!

An amazing fact was that Luke's radio was only turned on to his department's area. His boss asked, "Why did you turn your radio to another precincts frequency?" Luke replied, "I didn't." You see God had intervened.

Susan

**Prayer:** Prayers that we may listen and respond to God's call to help others. Amen.
